

Injectables

Neurotoxins – (Botox, Xeomin, and Dysport)

Injections used to reduce wrinkles, smooth facial contours and help erase signs of aging.

Fillers – Dermal fillers can be used to plump the lips, enhance shallow contours, soften facial creases, remove wrinkles and improve the appearance of recessed scars.

Wellness, Weight Loss & Body

Hormone Based Weight Loss – This program is designed to help patients realize their weight loss goals. It helps you lose weight and keep it off by resetting your metabolism to a "normal" range. This program addresses and corrects low metabolism, intense and constant hunger, or emotional eating and food cravings.

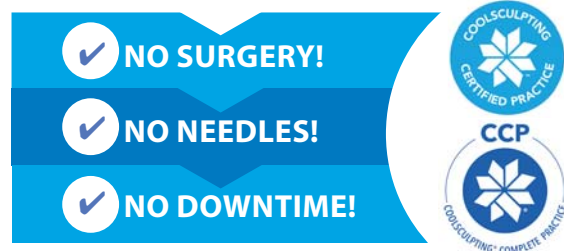

Vitamin B12 Shot – This is recommended for those who are looking to boost energy and increase metabolism.

i-Lipo – An FDA approved non-surgical treatment that doesn't require downtime and is clinically shown to reduce fat and cellulite when combined with exercise.

i-Lipo Ultra – An FDA approved non-surgical alternative to liposuction. It focuses on reducing the appearance of cellulite, delivering fat shedding and performing body contouring as well as skin tightening.

The CoolSculpting procedure is the only FDA-cleared, non-surgical fat reduction treatment that uses controlled cooling to eliminate stubborn fat and unwanted fat. The results are noticeable, proven, and lasting – so you'll look great from every angle!

About Us

Our mission at A Younger You Medical Spa is to uphold an atmosphere of professionalism, personal attention, and excellence in care. We offer the most advanced minimally invasive skin rejuvenation procedures. Our goal is to enrich your life by rediscovering your natural beauty. We strive to improve and highlight your most attractive features keeping in mind a natural, more youthful appearance.

In addition, our aestheticians and medical injectors offer complimentary consultations, so you can visit us in person at any one of our locations to learn more about what options are available to you!

Facial & Spa Services

Focus Facial – This condensed, yet highly personalized treatment will cleanse, exfoliate and revitalize your skin. The focus will be either on a deep cleanse and extractions for your pores or hydrating techniques for dry, dull skin. Either way, you'll experience a treatment that leaves your skin feeling clean, smooth, and revitalized.

Signature Facial – This facial is customized for all skin types with clinical strength ingredients uniquely designed to deliver results. This also includes a delightful facial massage with a blend of natural botanicals, aromatherapy oils, and luxurious techniques that will leave you feeling relaxed and pampered.

Signature HydraFacial – This multi-step treatment will cleanse, exfoliate, and extract to get rid of impurities and dead skin cells while at the same time quenching skin's need with vital nutrients like antioxidants, peptides, and hyaluronic acid. Includes red light and / or blue light therapy based on your skin's needs. The amazing results are both instant and long lasting! Great for all skin types and acne-prone skin!

Deluxe HydraFacial – Includes the Signature HydraFacial and choice of 1 Booster, Perk, or Lymphatic Drainage.

Premium HydraFacial – Includes the Signature HydraFacial with choice of 2 Boosters, Perks, or Lymphatic Drainage.

Platinum HydraFacial – Includes the Signature HydraFacial with choice of 2 Boosters or Perks & Includes Lymphatic Drainage.

- **Dermabuilder Boost** – Spot treatment to minimize fine lines and wrinkles with the use of power peptides for an instant plumping effect.
- **Britenol Boost** – Spot treatment that minimizes the appearance of dark spots and sun spots.
- **Growth Factor Boost** – Minimizes the overall appearance of aging to restore skin health and vitality.
- **Eye Perk** – A treatment that hydrates, lightens and replenishes your delicate eye area. Includes take home product to increase results.
- **Lip Perk** – A treatment that exfoliates, hydrates and plumps the lips. Includes take home product to extend benefits.
- **Lymphatic Drainage** – Removes unwanted and toxic buildup to reveal and optimize skin health, decreases inflammation and helps detoxify your skin. *Can be done as a standalone treatment also.*

Some services not available at all locations.

Microdermabrasion – This exfoliating treatment is great for aging, acne-prone, blotchy, or sun-damaged skin. It promotes cellular turnover for a refreshed and radiant glow.

Dermaplaning – A treatment designed to gently remove dull and dry skin along with fine vellus hair from the surface of the skin.

Hyfrecator – This treatment uses a low level electrical current to quickly and safely remove small lesions such as skin tags and milia from the skin's surface.

Body and Facial Waxing – Where there is hair, it can be waxed! A temporary solution for hair removal.

Chemical Exfoliation

Chemical Peels – This will smooth the texture of your skin by removing the damaged outer layers. It is an effective treatment for facial blemishes, wrinkles, and uneven skin pigmentation. *We offer PCA Skin Peels and VI Peels.*

Eyelash Extensions

Eyelash Extensions – Made to enhance and boost the look of your eyelashes. The silky soft, faux minx fiber blend beautifully with your natural lashes.

Skin Tightening/Resurfacing

Ultherapy – This is the only non-invasive procedure FDA-cleared to tighten & lift skin on the face, neck, under the chin, décolletage, and above the eyebrow. A great alternative to a surgical lift to tighten loose skin and wrinkles!

Venus Skin Tightening – A non-invasive anti-aging treatment that works to treat wrinkles, tighten skin, and reduce cellulite and circumferential fat by using heat to boost collagen production.

Venus Fractional Resurfacing – FDA approved, non-invasive, fractional radio frequency device specifically designed to dramatically improve the tone, texture and overall quality of skin. This treatment may be right for you if you struggle with fine lines, wrinkles, dark spots, leathery texture, acne scarring or stretch marks. (only available at certain locations).

Collagen Induction Therapy

Microneedling – This treatment stimulates collagen production and promotes new cell growth. It is great for treating acne scars, fine lines, wrinkles, and large pores.

Microneedling with PRP – This treatment uses a microneedling technique to infuse your own bodies reparative cells (PRP) into your skin.

Laser Services

Laser Hair Removal – A convenient, non-invasive method for permanently reducing or removing unwanted facial and body hair. It leaves the skin looking smoother and silkier than waxing, electrolysis, or razors and is a gentle technique that can treat larger areas effectively with minimal discomfort and with no downtime.

IPL/Photofacial – This procedure is used to treat hyperpigmentation, sun damage, rosacea, and much more. This mild skin rejuvenation procedure is great for achieving a radiant complexion!

Active Acne – This treatment uses a blue light that targets and destroys porphyrian produced by acne-causing bacteria. The red light controls inflammation and promotes faster healing.

Laser Vein Treatment – The Excel V laser treats a variety of vascular conditions including facial veins, scars, red birthmarks, port wine stains, angiomas, as well as rosacea. This laser can also target both superficial and deeper vascular structures. Its advanced design cools before, during, and after each pulse providing the highest level of control and comfort. It is safe for all skin tones.

Laser Genesis – This painless treatment gently heats the skin to stimulate new collagen growth. It will reduce the appearance of fine lines and wrinkles, enlarged pores, scars, sun damage, and uneven skin textures to recreate a youthful glow.

Tattoo Removal – Laser tattoo removal is the process of using energy from lasers to remove and reduce the appearance of unwanted ink from the skin. One of our specialists use lasers to target a specific area of the body, and the lasers pulsate, causing a change in pressure. The unwanted ink particles break apart into minuscule particles from the pressure change. Your immune system absorbs the particles and eventually eliminates them naturally.
